

June 12, 1952

Dear Ed:

Of course you may display any photographs you've made from the prep. of *E. coli* that I sent you. It hardly needs be said that you should point out that any interpretations you may present are your own. If you can spare an extra set of prints, I'd enjoy seeing them. Unfortunately, I do not foresee attending the Ithaca meeting myself, but several others late of this lab. ought to be there.

I don't know what I did to make that prep. shrink down to give such an unconfused picture. All others have since looked pretty much like the figures in our plate in the CSH volume.

Sincerely,

Joshua Lederberg
